

CITY OPTOMETRIST ATTENDS LECTURE

Dr. Eleanor Z. Thill, of this city is attending a four-day series of post-graduate lectures in Santa Barbara, on the subject

of subnormal vision in children and young adults.

The Institute was conducted by Dr. T. R. Murroughs, former professor at the Northern Illinois College of Optometry in Chicago, Illinois, and an outstanding authority on the subject. Dr. Murroughs, presently of Santa Barbara, has conducted many research studies on visual malfunctions.

The emphasis was placed on

the individual with strabismus (crossed-eyes) and those with subnormal vision. Dr. Murroughs pointed out that a high percentage of cross-eyed persons can be aided through orthoptics, a vision training program, currently practiced by optometrists and many medical eye practitioners. With the inclusion of surgery at the proper stage of the training program a still higher percentage of successful results is assured.

(Continued from page 1) who will be assistant principal of South High.

Other South High administrators are: Girls' Adviser Carmelita Rous, now holding a similar post at Torrance High; Boys' Adviser Franklin G. Anderson, now a math instructor at Torrance High; Student Activities Adviser R. J. Ellsworth, and Attendance Adviser Joseph M. Melear, Jr., both North High teachers now.

BROKEN GAS MAIN at the corner of Crenshaw and Torrance blvds. Friday brought out the Police and Fire departments. The main was broken when a digging unit operated by a pipe

line construction company dug a little too deep. An emergency crew from the Southern California Gas Co. worked far into the night to repair the pipe.

Letters to the Editor

Annexation Questions

Editor, Torrance Press.

In a Lomita newspaper on November 21 there is a story about Lynn Chandler "having to annex" to Rolling Hills or Torrance. We wonder whether he or anyone else in the area ever read the law about annexing "uninhabited territory?" If owners of over one half the land value protest to the city council, annexation is stopped.

What brought about this desire to be annexed? Did they get in on any deal? What kind of a deal did Mayor Hopkins make with Chandler at a meeting, November 4 or 5? Is Dapple Gray Lane to be a through street to 101 so gas tax can be used to extend and maintain it? Will Rolling Hills Estates permit oil well drilling where the county will not?

Mrs. Dessie G. Myers

Last Word

Editor, Torrance Press:

I would like to present some thoughts as an aftermath of the recent incorporation battle in Lomita. The "pro" group claimed to have a "committee of 1000" for incorporation. The Lomita Property Owners and Registered Voters, Inc., and the Lomita Civil League claimed this committee was largely fraudulent and asked that certain names that did not belong there be removed.

Under considerable pressure they did remove one 14-year-old girl's name, but were adamant in refusing to take off the names of aliens, 12-year-olds,

Telephone . . .

(Continued from page 1)

Important to California's future. "We have no alternative but to seek to recover these additional costs of doing business through a small increase in monthly charges for telephone service. The effect of this increase on the bills of most of our subscribers will be slight. But it will have an important bearing on our ability to meet the needs for an expanding and improving Telephone System in California."

Some additional revenue would be obtained from a moderate increase in some person-to-person long distance rates and from charges on certain items of special equipment. The combined effect of the increases proposed on person-to-person calls within California in the initial and amended applications would vary from five to 50 cents on a three minute call, depending upon the distance involved.

No increase in station-to-station calls or in calls to points outside of California is being asked in either the original or the amended rate applications.
